PREFATORY STATEMENT

Republic Act 9514, known as Comprehensive Fire Code of the Philippines 2008 provides that flammable and combustible liquid shall be stored on approved containers or tanks properly labelled with the physical properties of its content, flammability or combustibility and precautionary measures. RA 9514 is often all not that comprehensive when it comes to regulating the bote-bote de gasoline (tingi-tingi).

The continued operation of unsafe and sub-standard retail outlets (e.g. bote-bote/tingi-tingi) may expose the consuming public to fire, security, health and environmental risk and it deprive the municipal government of revenue derived from licensing fees, local business taxes and pump calibration charges and encourage smuggling pilferage and theft of liquid petroleum products.

Batas Pambansa Blg. 33 as amended by Presidential Decree No. 1865 and the implementing rules and regulations therefore, defines and penalizes prohibited acts including illegal trading in the petroleum products, adulteration and under-delivery among others.

Municipal Ordinance No. 92-05, Series of 1992 the same was prohibiting the sales of gasoline, however such regulation was specifically in the public market of barangay Poblacion operated by the local government of this municipality.

BE IT ORDAINED by the Sangguniang Bayan in session assembled:
