SUPPLEMENTARY INFORMATION

The Sangguniang Bayan had acted Municipal Ordinance No. 20-10, Series of 2020, dated February 10, 2020, entitled "SIAYAN SAFE MOTHERHOOD ORDINANCE."

Such Municipal Ordinance was officially submitted to the Sangguniang Panlalawigan in the Province of Zamboanga del Norte for review and appropriate action, unfortunately, it was returned without favourable action with advised under SP Resolution No. 605, dated August 10, 2020.

Considering the significant of said ordinance in its implementation for maternal health care of this municipality therefore it needs to be amended adopting the advises and recommendations of the Sangguniang Panlalawigan hence this re-enactment.

PREFATORY STATEMENT

The United Nations Population Fund Association (UNPFA), disclosed that obstetrical complications are still the leading cause of death for women of reproductive age in developing countries.

In the past years, maternal health strategy was the risk-based approach focus on prenatal care and trainings of Traditional Birth Attendants (TBA) but this particular intervention did not reduce mortality.

Not all obstetrical complications are predictable or avoidable but can be managed if identified early, thus, there is a need to focus on prenatal and postpartum stages to be assisted by skilled birth attendant and that includes Physicians, Nurses and Midwives only.

Therefore, this measure is being enacted in order to prevent and/or eradicate maternal death, illness of mother who undergoes prenatal, delivery and postnatal treatment.

BE IT ORDAINED by the Sangguniang Bayan in session assembled:
