MESSAGE OF THE PUNONG BARANGAY

The signing of Executive Order No. 138 by President Rodrigo R. Duterte is a big milestone on the part of local government units in realizing the full devolution of powers and resources as mandated by the 1991 Local Government Code. With the Mandanas-Garcia Ruling of the Supreme Court, LGUs are now granted a just share in national taxes consistent with the policy of decentralization as enshrined in the Constitution.

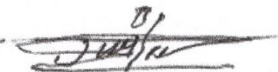

We welcome this development and anticipate its positive impact in terms of empowering LGUs to deliver basic services, which are responsive to the needs of the people. We understand that the financial resources of an LGU are directly proportional to its responsibilities. In other words, increase in financial resources would mean an increase in powers, authority, and responsibilities of the LGU.

The creation of the Devolution Transition Committee (DTC) at the barangay level has been instrumental in accelerating the actions of the barangay to comply with the requirements of the EO 138 as well as those contained in the Department of Budget and Management and the Department of the Interior and Local Government Joint Memorandum Circular re: "Guidelines on the Preparation of Devolution Transition Plans of Local Government Units in Support of Full Devolution under Executive Order No. 138, dated 01 June 2021" dated August 11, 2021.

With the guidance of the Municipal Government of Siayan, Zamboanga del Norte and the Department of the Interior and Local Government Siayan Field Office, we were able to formulate this Barangay Devolution Transition Plan despite resource limitations and the restrictions brought about by the COVID-19 pandemic.

I thank all the individuals who have generously offered their time, talent, insights, hard work, sacrifices, and commitment in the accomplishment of this Devolution Transition Plan.

Let us work together in the realization of our common goals and objectives as we journey to become a more efficient and effective Barangay Polayo under the full devolution.

SECTION 1. STATE OF DEVOLVED FUNCTIONS, SERVICES AND FACILITIES FOR BARANGAYS

Section 17 of Republic Act No. 7160 or the Local Government Code of 1991 provides that local government units shall endeavor to be self-reliant and shall continue exercising the powers and discharging the duties and functions currently vested upon them. They shall also discharge the functions and responsibilities of national agencies and offices devolved to them pursuant to this Code. Local government units shall likewise exercise such other powers and discharge such other functions and responsibilities as are necessary, appropriate, or incidental to efficient and effective provision of the basic services and facilities.

Such basic services and facilities for Barangays include, but are not limited to, the following:

- Agricultural support services which include planting materials distribution system and operation of farm produce collection and buying stations;
- Health and social welfare services which include maintenance of Barangay health center and day-care center;
- Services and facilities related to general hygiene and sanitation, beautification, and solid waste collection;
- Maintenance of Katarungang Pambarangay;
- Maintenance of Barangay roads and bridges and water supply systems
- Infrastructure facilities such as multi- purpose hall, multipurpose pavement, plaza, sports center, and other similar facilities;
- Information and reading center; and
- Satellite or public market, where viable.

After the enactment of the Local Government Code of 1991, barangays were also given additional functions and responsibilities through the passage of the following laws, to wit:

- Republic Act No. 9003 or the Ecological Solid Waste Management Act of 2003;
- Republic Act No. 10742 or the Sangguniang Kabataan Reform Act of 2015;
- Republic Act No. 10121 Philippine Disaster Risk Reduction and Management Act of 2010;
- Executive Order No. 56 s. 2018 or the Effective Implementation of Emergency 911;
- Executive Order No. 12 S. 2017 or the Implementation of Responsible Parenthood and Reproductive Health at the LGUs;
- Republic Act No. 1344 or the Juvenile Justice and Welfare Act of 2006; and
- Republic Act No. 9275 or the Philippine Clean Water Act of 2004.

In line with the implementation of the Supreme Court Ruling on Mandanas and Garcia Petitions, President Rodrigo R. Duterte issued Executive Order No. 138 s. 2021 ordering full devolution of certain functions of the executive branch to local government units. In response, National Government Agencies (NGAs) formulated their respective Devolution Transition Plans to guide LGUs including barangays on what functions, services and facilities as well as specific programs, projects and activities to be devolved to them.

SECTION 2. PHASING OF ASSUMPTION OF FUNCTIONS, SERVICES, AND FACILITIES FOR BARANGAYS

Section 4 of Executive Order No. 138 s. 2021 states that the devolved functions, services and facilities from the National Government should be fully assumed by the Local Government Units not later than the end of FY 2024 which include those indicated under Section 17 of RA 7160 and other existing laws. Local Governments shall primarily and ultimately accountable for the provision of all devolved basic services and facilities in accordance with the standards for service delivery to be prescribed by the NG. The basic services and facilities fully devolved shall be funded from the share of the LGUs in the proceeds of national taxes and other local revenues.

For the next three (3) years, the following functions, services and facilities will be fully assumed by the barangays, to wit:

↓ 2022

↓ 2023 I

↓ 2024

1. Agg. support services which include planting materials, distribution system and operation of farm, produce collection and buying station
2. information and reading center
3. construction of one unit health center
4. quality of copra

SECTION 3. CAPACITY DEVELOPMENT (CapDev) REQUIREMENTS FOR BARANGAYS

In view of the full devolution of certain functions from the NGAs, the provinces, cities, and municipalities are directed to formulate their respective capacity development agenda based on the assessment framework and guidelines to be issued by the DILG-LGA. The capacity development agenda shall be guided by, among others, the strategy to enable the LGUs to absorb, manage, and sustain the responsibilities under a fully devolved set-up. For barangays, they shall determine their capacity development requirements based on the functions and services they will fully assume, guided by the NGA DTPs, if available, local development thrusts, and performance goals and objectives.

Capacity is the ability of LGUs to perform functions to fulfill their accountabilities and produce desired results. The capacity development requirements for barangays will be our guide in implementing capacity development initiatives. It is a roadmap of appropriate individual and organizational enhancement interventions corresponding to an identified LGU deliverable within specific timeframes and available resources.

The following are the capacity development interventions we have identified to be implemented from 2022 to 2024. *(Arrange by year)*

2024:

1. Agg.support services wich include planting materials,distribution system and operation of farm, produce collection and bying station
2. information and reading center
3. construction of one unit health center
4. quality of copra

This section describes the state of devolved responsibilities in the barangay and how the increase in the just share of barangays and the full devolution of functions, services, and facilities by the NGAs concerned will affect the operations and service modalities of the LGUs. Below are some focus questions to help the barangay describe this section:

- What devolved functions, services, and facilities are already implemented or performed by the barangay?
- Which of these devolved responsibilities are considered to be the priority/ies of the barangay, and why?
- Which of the programs/projects/activities along devolve responsibilities implemented by the barangay are already making headways in terms of delivering results?
- Are there devolved responsibilities that have yet to be fully assumed by the barangay? If there are, what are these responsibilities?
- What are some of the reasons why the barangay was not able to assume these responsibilities or implement the PPAs along these devolved responsibilities?
- Are there emerging good/unique practices that the barangay is happy to include in their DTP?

F. Section 2: Phasing of Full Assumption of the Devolved Functions, Services, and Facilities

This section presents the functions, services, and facilities to be fully devolved by the NGAs concerned to the barangays, the phasing and full assumptions by the barangay of the devolved responsibilities.

In determining the fully devolved responsibilities critical to the barangay, and in phasing of their full assumption of these devolved responsibilities, the barangay may consider the following factors in their decision-making:

- Development issues arising in the locality or priority needs of barangay constituents;
- Human resource capacity of the barangay to implement the responsibilities to be fully devolved;
- Barangay fiscal resources to fund the responsibilities to be fully devolved; and
- Availability of external technical support (e.g., NGAs, NGO, academe).

G. Section 3. Capacity Development (CapDev) Requirement

This section shall describe the capacity development requirements of the barangay to absorb, manage, and sustain the responsibilities under a fully devolved set-up.

In consultation with the barangay stakeholders, the Barangay Development Transition Committee (DTC) revisits the functions, services, and facilities to be fully devolved by the NGAs concerned and then identify the capacity development requirements (e.g., trainings, seminars, etc.) covering FY 2022-2024 needed by the barangay to fully assume these devolved responsibilities by 2024.

The Barangay DTC ensures that their prioritized capacity development requirements are included in their AIP FY 2022 or LDIP FY 2022-2024.

- The Barangay DTC assesses the annual capacity building requirements of the barangay covering FY 2022-2024 with reference to the responsibilities it will fully assume and in consideration of their phasing strategy. The Barangay Secretary consolidates the assessment results and prepares **Attachment 3-B: Capacity Development Requirements for Barangays (Annex G-2)** and submit it to Barangay Treasurer for review of the financial requirements of the proposed capacity development interventions;
- The Barangay Treasurer reviews **Attachment 3-B (Annex G-2)** and endorses it for approval of the Punong Barangay;
- The Punong Barangay approves **Attachment 3-B (Annex G-2)** and submits it to the Sangguniang Barangay for approval together with the two (2) other forms **Attachment 2-B (Annex F-2)** and **Attachment 1-B (Annex E-2)**, when approved. **The three (3) attachments, taken together, constitutes the Barangay DTP.**

- As a primary consideration in the formulation of future local development plans and investment programs, and in the implementation of priority PPAs relative to the devolved functions and services;
- As basis for establishing partnerships and cooperative undertakings with national government agencies, and other governance stakeholders such as the NGOs, CSOs, POs, business sector, and academic institutions.

ADDITIONAL

- WHICH OF THE FSFs THAT ARE ALREADY EXISTING ARE PRODUCING RESULTS/OUTCOME IN THE COMMUNITY?
- 1. The community of barangay Polayo has existing Projects such as Farm to Market Road, Electrification, Covered Court, Water supply system, Streetlight can served for every body in this barangay.

Construction of Open Canal in Purok centro

The LGU considers the community in Purok as the beneficiary for this significant project because the area is frequently flooded every time there is heavy downpour, and there is difficulty of passage for residents during rainy season. The construction of the open canal allows rainwater to freely flow to a water gateway preventing possible flooding in the community and ensuring the safety of residents in the purok.

Of these devolved responsibilities, Barangay POLAYO considers the establishment of the Barangay Nursery as the priority program because the barangay recognizes the fact that financial support from the national government is not always available to all, and in order for the barangay to become self-sufficient especially under the COVID-19 pandemic, food security is very important. With the establishment of a nursery, the germination percentage (the likelihood for the new seedlings to propagate is high) and as a result, the barangay would be self-sufficient when it comes to food production. With the establishment of the nursery, the farmers will have a regular source of seedlings to ensure greater yield.

The devolved responsibilities implemented by the barangay are already making headways in terms of delivering results in food production under the current pandemic.

1. Establishment of materials recovery facility
2. Enactment of policies pertaining to solid waste management from segregation of waste from source to actual waste disposal
3. Issuance of resolution adopting solid waste management related policies enacted by the Sangguniang Bayan such as Zero Policy, among others.

Under RA 9003, the barangays are primarily responsible for the effective and efficient solid waste management, particularly, garbage segregation and disposal. To comply with this mandate, Barangay polayo endeavors to establish materials recovery facility, enact policies pertaining to solid waste management, from segregation of waste from source to actual waste disposal, and to issue resolution adopting solid waste management related policies enacted by the Sangguniang Bayan such as Zero Plastic Policy, among others.

The barangay has already implemented the establishment of a materials recovery facility; however, the facility was damaged due to recent typhoons. This barangay commits to rehabilitate the same and make it functional or operational
